EXECUTIVE SUMMARY

Product marketing leader for AI platforms, enterprise solutions and regulated-market launches. Uses **customer research, segmentation, positioning, launch readiness, lifecycle adoption, pricing** and **unit economics** to translate complex technical capabilities into clear **buyer value**, measurable **adoption** and scalable **commercialization**. Brings **positioning, messaging, segmentation**, launch strategy, **adoption, localization, monetization** and value realization for technical products and enterprise buying motions.

EDUCATION

University of Michigan, Stephen M. Ross School of Business - Master of Business Administration | 2022 - 2024

London School of Economics and Political Science - Executive Coursework, Economics, Markets & Public Policy | 2024

Indian Institute of Technology - B.Tech, Computer Science | 2010 - 2014

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS)

Jul 2024 - Present | San Francisco, CA

Principal AI Product Marketing & Global GTM

- Used **customer research**, behavioral telemetry and human-factors analysis to reposition an AI shopping experience around decision support and purchase completion rather than open-ended conversation.
- Built launch-readiness evidence through prompt, retrieval and product-surface experiments with human review, task-specific evals and guardrails; reached **25% adoption**, brand favorability **55% to 70%**, hallucinations **2.8%** and session depth **+15%**.
- Authored a Working Backwards PR-FAQ and **\$100M+** GMV sensitivity model, securing executive alignment and **\$5M** incremental funding for the agentic roadmap; infrastructure changes improved gross margin **55% to 81%**.
- Led Japanese-language launch and reusable **internationalization / localization** patterns spanning tone, tokenization and culturally appropriate interaction design.
- Defined launch criteria for policy-aware AI advertising, translating legal, brand and safety requirements into pre-generation controls and measurable **commercialization** gates.
- Translated the managed agent platform - private-data connectivity, access controls, audit traces, approvals and cost-quality routing - into enterprise **positioning, messaging** and launch narratives for security-conscious and regulated buyers.

Rakuten Group, Inc.

Jun 2023 - Dec 2023 | Tokyo, Japan

Product Marketing Manager, Merchant AI Adoption & Monetization

- Framed the **positioning** and **commercialization** of a buy-intelligence, build-context AI platform across **70+** business units and **50,000+** merchants, differentiating proprietary workflow context from commoditized model intelligence.
- Embedded AI into merchant workflows, reaching **40% adoption** in six months, increasing conversion **15%** and reducing listing time **45 to 12** minutes.
- Used usage analysis and **unit economics** to discontinue an underperforming standalone chatbot, reduce network energy use **25%** through inference optimization and refocus **GTM** on higher-value enterprise segments.
- Reframed consumer-launch economics through cohort and win-lift analysis, improving CAC **\$42 to \$8.50**, LTV:CAC **0.8x to 4.5x**, D30 retention **34% to 67%** and payback **18 to 4** months while **repositioning** the offer toward enterprise partnerships.
- Partnered with Analytics, Finance and Merchant teams to resolve a cross-device attribution gap, improving **adoption** measurement, revenue attribution and value-realization reporting used to refine **messaging**, proof points and **commercialization** priorities.

Microsoft Corporation

Jan 2020 - Aug 2022 | Redmond, WA

Senior Product Marketing Manager, Enterprise Segmentation & Lifecycle Growth

- Developed enterprise **segmentation** and market-development strategy for government and regulated buyers requiring local data control and security validation; reusable deployment patterns reduced implementation from months to hours.
- Owned onboarding, activation, retention, expansion and win-back for a developer/business AI platform; increased activation **262%**, NRR **102% to 128%**, reduced churn **14% to 6.5%** and improved win-back **4% to 22%**.
- Commercialized verified identity, approvals and event-triggered payments as workflow **value propositions**, reducing contract-to-cash **14** days to **<48** hours and supporting **~10x** partner volume through clearer enterprise use-case packaging.
- Directed global AR shopping app launch **messaging** and demand activation across LinkedIn, Google, PR, App Store Optimization and organic discovery, connecting channel execution to awareness, activation and product-**adoption** objectives.

The D. E. Shaw Group

Jul 2016 - Dec 2019 | New York, NY & Hyderabad, India

Vice President, Product Marketing & Value Realization

- Led **adoption** of an intelligent document-processing platform using semantic extraction and confidence-based human review; achieved a **98%** confidence threshold, cut earnings ingestion from hours to seconds and reduced cost **~70%**.
- Took a real-time risk platform through a three-month shadow deployment before production capital decisions; reduced false alerts nearly **90%** and unlocked **~\$85M** in regulatory capital, creating a measurable value-realization story for stakeholders.
- Built institutional engagement and client-data infrastructure in regulated Asian markets, using behavioral signals and service-level metrics to improve commercial outreach and product **adoption**.
- Translated quantitative strategy, market structure and live risk controls into an institutional **value proposition** that supported a **\$500M** mandate, using technical proof points to overcome buyer objections and strengthen enterprise credibility and differentiation.

McKinsey & Company

Jul 2014 - Jun 2016 | London, UK

Associate, Pricing, Positioning & Commercialization

- Owned market sizing, customer discovery, MVP scope, regulatory alignment and **go-to-market** strategy for a Southeast Asian digital bank that reached **100,000** active users in **90** days while maintaining **2.4% NPL**.
- Redesigned an institutional digital-asset brokerage **value proposition** around instant credit, volume **pricing** and compliance, supporting transaction volume **\$215B to \$371B** and recurring revenue **\$45M to \$213M**.
- Led a next-best-action **commercialization** effort for wealth advisors, turning predictive churn scores into understandable reasons and recommended actions while using advisor feedback and rejection signals to improve **adoption** and model learning.
- Designed an elasticity-based **pricing** and **value proposition** using regression, KVI **segmentation** and hindcasting; identified a **\$50M** revenue opportunity with **95%** forecast accuracy, sharpening **pricing** architecture and **commercialization messaging**.
